

## Paul B. Domorski

President and CEO

EMS Technologies, Inc.

---

Paul Domorski was appointed president and chief executive officer of EMS Technologies, Inc., in June 2006. He provides both strategic direction and operational management for EMS, a leader in advanced technology since its founding in 1968. Today, EMS has 1,200 employees and revenues of \$300 million. Mr. Domorski also has been appointed as a member of the EMS Board of Directors and serves on the Science and Technology Committee and Stock Incentive Plan Committee.

Prior to commencing his new position in June 2006, Mr. Domorski was vice president of Avaya Corporation's \$1.6 billion Services Operations business, providing communication systems and services to business and government enterprises.

Previously, he served as president and chief executive officer during the restructuring of RSL Communications Ltd., an international provider of communications services.

Mr. Domorski was also president (1997-2000) of British Telecom's

Outsourcing and Network Management business, Syncordia Solutions, during a period of rapid growth.

He began his career at Unisys Corporation and its predecessor companies, and held progressively more responsible executive and financial roles there.

Mr. Domorski holds a Master's degree from the University of Pennsylvania as well as Bachelor and Master's degrees from The American University, where he was one of their youngest graduates ever.
